

Hey Student,

During your journey of Future Ready Talent, you will learn new skills and would require you to Update your Azure Skills on LinkedIn. The project stage and several other benefits – Like student developer pack can be unlocked basis successful validation of skills.

Submit your profile URL for the team to validate your details when you place the request to avail these benefits – Student's developer pack

Find Your LinkedIn Public Profile URL

If your LinkedIn profile is set to public, it'll have a link (URL) you can use to share your profile with others.

To find your public profile's URL you can use a search engine and search for your First and Last Name and LinkedIn as search terms. You can also sign into LinkedIn and do the following:

1. Click the **Me** icon at the top of your LinkedIn homepage.
2. Click **View profile**.
3. On your profile page, click **Edit public profile & URL** on the right rail.
4. Under the section **Edit URL** in the right rail, locate your public profile URL.
 1. It'll be an address that starts with www.linkedin.com/in/.
5. Copy and paste this link to share it with others.

iOS

To find your public profile's URL:

1. Tap your profile photo > **View Profile**.
2. Scroll down to the **Contact** section.
3. Under the **Your Profile** section, locate your public profile URL.
 1. It'll be an address that starts with **www.linkedin.com/in/**.
4. Copy and paste this link to share it with others.

Android

To find your public profile's URL:

1. Tap your profile photo > **View Profile**.
2. Scroll down to the **Contact** section.
3. Under the **Your Profile** section, locate your public profile URL.
 1. It'll be an address that starts with **www.linkedin.com/in/**.
4. Copy and paste this link to share it with others.

Mobile Browser and Lite App

If your LinkedIn profile is set to public, it'll have a web address (URL) you can share with others.

1. Tap the **Profile** icon.
2. Scroll down to the **Contact** section.
3. Under **LinkedIn**, locate your public profile URL.
 1. It'll be an address that starts with <https://www.linkedin.com/in>.
4. You can copy and paste this link to share it with others.

Note: You can't edit your public profile URL from LinkedIn Lite. You can update it through the LinkedIn mobile app or the desktop website.

Here are a few things to remember:

1. This URL won't appear if you don't have a [public profile](#).
 2. Members who live in certain countries have a public profile URL that begins with a 2-letter code based on the country listed on their profile. For example, if you live in Canada, your public profile URL could be **<http://ca.linkedin.com/in/linkedinyourname>**.
3. If you change the country listed on your profile, your public profile URL automatically changes. The old URLs will still work.
